How many types of *Events* are defined? 0 ◯ 1 ◯ < 5 ◯ >= 5 ◯ (☐)

How many *EventFilters* are programmed? 0 ◯ 1 ◯ < 5 ◯ >= 5 ◯ (☐)

Test review

GWTEventService 1.2 was tested with a …
– sample / demo application ◯
– prototype application ◯
– productive application (in test environment) ◯

GWTEventService 1.2 has generally worked ☐

New features of GWTEventService 1.2

Multiple / shared sessions	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Streaming (alternative to long-polling)	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Automatic reconnect	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Timeout listening	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯

Improvements of GWTEventService 1.2

Add events from the client side	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Concurrency optimizations	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Multi-threading improvements	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Maven build system integration	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Platform refactoring	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
Logging improvements	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯
API changes	not tested ◯	hasn't worked ◯	not required ◯	improvable ◯	good ◯

Overall impression: bad ◯ better than the previous version ◯ improvable ◯ good ◯ fantastic ◯

Your opinion / found issues: ☐
